EPOS ICS-TCS interaction (WP11 and 16) in Rome, 9-10 May 2019

Thursday, May 9, 2019 to Friday, May 10, 2019

Location:

Rome, Italy at INGV

The EPOS Integrated Core Services (ICS) and Thematic Core Services (TCS) teams will meet for an Integration Workshop in the beautiful city of Rome at the INGV headquarters the 9<sup>th</sup> and the 10<sup>th</sup> of May 2019.

This workshop is expected to have EPOS Thematic Core Services (TCS) WP leaders of the TCS Volcano Observations and the TCS Multi-scale Laboratories and their nominees as representative use-case persons (User Feedback Group) present for discussions with the Integrated Core Services (ICS) team.

After this last workshop, EPOS ICS team will check the degree of satisfaction of the requirements of the TCS communities and (a) report on success or otherwise; (b) propose improvements to existing components or the need for additional components to be fed into the ICS development plan.

More details about the event will be circulated soon.
