

EPOS @ESFRI Validation Workshop on Monitoring of RIs, and KPIs in Brussels, Belgium, 3 July 2019

Date:
Monday, July 8, 2019 - 10:30

The EPOS [ERIC](#) Executive Director Massimo Cocco attended the ESFRI Validation Workshop dedicated to “Monitoring of Research Infrastructures- Methodology and Key Performance Indicators” in the context of the work of the ad hoc Working Group on Monitoring of Research Infrastructures Performance.

The workshop has been held in Brussels, Belgium on 3 July 2019, hosted in the European Commission CDMA building.

Following the ESFRI Workshop on Monitoring of RIs, Periodic Update of Landmarks, and the Use of KPIs, which took place in Milan on 19-20 November 2018, this workshop focused on the validation of preliminary findings and recommendations of the Monitoring WG.

The Workshop explored a common methodological approach, a set of core KPIs, a framework for adapting KPIs to specific RIs, and some recommendations on their inclusion in the governance of RIs.
