[EPOS @EGU2020 in Vienna, Austria, 3-8 May 2020](#)

Sunday, May 3, 2020 to Friday, May 8, 2020

Location:

Vienna, Austria at ACV

EPOS will be present again at the European Geosciences Union General Assembly 2020 that will be held at the Austria Center Vienna (ACV), Austria, from 3rd-8th May 2020.

The EPOS Exhibition Booth at EGU will be, as usual, again the place where to meet the solid Earth science community and disseminate updated information about the EPOS [ERIC](#) establishment and operation, the implementation of data and service provision through Thematic and Integrated Core Services ([TCS](#) and [ICS](#)) and where to as well as distribute booklets and flyers ... and EPOS gadgets!!

Meet us at our Booth **EPOS ERIC #112-113 at the Exhibition Gallery**, first floor.

There will be meetings and demo presentations on Integrated and Thematic Core Services.

These meetings and demo presentations are an important opportunity for the EPOS community to discuss about the EPOS data, products and service provision from a technical, governance and legal point of view and to keep debating about the integration and implementation of the thematic (community layer) and integrated (data interoperability layer) core services for solid Earth sciences.

Please read the guidelines on how to submit an abstract carefully [here](#). The abstract submission **deadline is 15 January 2020, 13:00 CET**.

The meeting programme will be available on March 2020. Stay tuned!
