EPOS TCS Multi-Scale Laboratories community meeting, 27 November 2020

Friday, November 27, 2020

Location:

virtual conference

The EPOS Thematic Core Services **Multi-Scale Laboratories** will have an online community meeting on Friday November 27<sup>th</sup>, 2020 from 10:00-12:00 (UTC ).

The EPOS TCS Multi-scale laboratories (MSL) represents a community of European solid Earth sciences laboratories

including high temperature and pressure experimental facilities, electron microscopy, micro-beam analysis, analogue tectonic and geodynamic modelling, paleomagnetism, and analytical laboratories.

The purpose of the MSL meeting is:

- to strengthen the EPOS MSL community,
- to introduce newly joined labs,
- to exchange experiences and ideas on topics such as data publications, lab workflows, community plans.

More information will be circulated soon on the website.
